## PANORAMA showcase

### Self-Service Heated Displays

#### Pass Through - Countertop

## DESIGN

Rotisol display cases are designed with food quality in mind. The Panorama line offers a totally transparent design that will enhance the value of your offering while keeping it at optimal serving temperature. Get better taste, less waste and longer lasting profits with the built in safety glass shelves, large glass side panel and LED lighting on each level to bring the focus on the quality of your operation. Our Panorama line is perfect for any grab-and-go food program, mobile order staging with both standing and counter top warmers available.

## CLEANING

Our unique design allows easy and total interior accessibility for easy operation and cleaning to save precious labor hours.

## PERFORMANCE

Through our innovative heating technology, each level is maintained at temperatures between 140F and 165F providing ultimate food quality while preserving safety guidelines. Heating elements and fan create an invisible air curtain that keeps stacked containers hot, regardless of their placement.

## TECHNICAL CHARACTERISTICS

- **Energy efficiency** with our **K-glass doors** + panels reflecting the heat inwards while maximizing the view of the displayed products
- Models available **Pass Through** (rear loading) ranging from 2 to 5 heated levels.
- Manufactured in Europe with a commitment to quality
- Concealed **control panel** with independent **touch screen driven thermostat** for each level
- **LED lighting** for maximized visibility
- Removable “Hot 2 Go” black screen-printed glass banner
- Standard finish: high grade **stainless steel** and **black epoxy paint**
- Mounted with **adjustable base with feet** for perfect levelling.
- **Self-closing doors** for customer convenience and heat retention
- Power supply: **208/220 V – 60 Hz** – 1 phase + ground. Cord length: 80 inches – no plug provided

## MODELS AVAILABLE

#### PASS THROUGH

6MCVLST.PANO

10MCVLST.PANO

available with 2-5 shelves with individual thermostats

#### COUNTERTOP

6MCVLST.PANOTT

10MCVLST.PANOTT

available with 2-3 shelves with individual thermostats

## ENERGY & COST- EFFICIENT K-GLASS

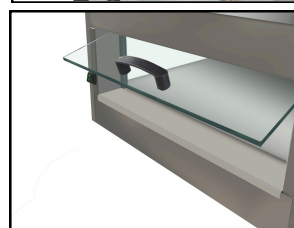

Featuring K-GLASS doors and panels, the Panorama showcase is engineered for optimal energy efficiency. The inner panes have a specialized thin metal coating that regulates heat transfer, offering exceptional resistance to thermal radiation. This design enhances energy efficiency, lowering operational costs and contributing to significant savings. The glass also minimizes heat emission in your location, improving comfort for your team and customers while enhancing safety by preventing burns upon contact with the glass surfaces.

Innovative heat circulation and distribution technology for each shelf.

Digital display and Individual thermostat control.

Rear glass door with handle.
